

A close-up, blue-tinted photograph of architectural blueprints. A pair of compasses and a pencil are resting on the drawing, which shows various geometric lines and structures.

# ICT

quality matters

A large, detailed architectural drawing of a building complex, rendered in a blue and orange color scheme. The drawing shows various rooms, corridors, and structural elements, with a compass and pencil visible in the upper right corner.

## COMPANY PROFILE

## Main Fields of Activity

As long as the company is staffed with professional employees, it offers high quality products/solutions for building, civil and industry sectors, as well as consulting, installation, supervision and related after-sales services. Our employees periodically take training courses with manufacturers.

The company's main fields of activity are as follows: Heating and air conditioning systems. Design, installation and maintenance for hotels, offices, private houses, apartments, and plants.

- ✓ Water supply and sewage systems. Design, installation and maintenance.
- ✓ Passive fire protection. Design, installation and maintenance.
- ✓ Active fire protection (using sprinkler & drencher systems; gaseous suppression; foam agents, water mist; restaurant fire suppression; dry chemicals, etc.). Design, installation and maintenance.

We represent globally recognized brands on the Georgian market:

## ■ GEBERIT

The globally operating **Geberit Group** is a European leader in the field of sanitary products. Geberit operates as an integrated group with a very strong local presence in most European countries, providing unique added value products from beginning to end. Geberit systems deliver solutions for water supply, use, flushing and drainage.

- ✓ The **Geberit HDPE** drainage system delivers optimal performance. The system pipes are easily welded and guarantee not only high chemical, thermal and mechanical strength but are also absolutely watertight and possess an extraordinarily high longitudinal strength. The company also produces mechanical products including valves, piping and couplings for engineering and design projects.
- ✓ **Geberit Silent-db20** has very good soundproofing properties because of its significantly increased mass. The ribs have a vibration dampening effect and reduce the vibration of the pipe and therefore the emission of airborne sound.
- ✓ The **Geberit Pluvia** roof drainage system includes roof outlets, pipes and fittings made of **Geberit HDPE**. Unlike conventional roof drainage methods, the Geberit Pluvia system functions as a syphonic system.
- ✓ Water supply: **Geberit Mapress** and **Geberit Mepla** with safe and long-lasting connections.

Tyco is the world's leading fire & security company.

Tyco advances safety and security by finding smarter ways to save lives, improve businesses and protect where people live and work.

Tyco is committed to producing products and providing services to customers in a safe, responsible manner that respects the health and safety of employees, the environment, customers, shareholders and the communities in which it operates.

## Fire protection

Supply, design, installation, monitoring, maintenance and auditing services for:

- ✓ Water based fire suppression: Sprinkler, deluge & water mist systems
- ✓ Mechanical products including valves, piping and couplings for engineering and design projects
- ✓ Kitchen protection systems
- ✓ Special Hazard Systems: foam and foam hardware, clean agent and inert gas fire suppression systems
- ✓ Vehicle protection systems
- ✓ Mass notification systems
- ✓ Emergency fire response
- ✓ Fire alarm and detection systems

TeploLux, founded in 1991, is the largest in Russia and one of the world's largest providers of residential and commercial heating cable solutions and industrial heat tracing systems. SST products and solutions are distributed throughout Russia and exported to over 40 countries worldwide.

To date, the company has produced 1.3 million kilometers of heating cables, over 13.2 million electrical heating systems and over 5.5 million units of thermal control equipment.

### Products:

- ✓ Electric heating solutions
- ✓ Roof and gutter de-icing systems
- ✓ Ice and snow melting solutions for open areas
- ✓ Underfloor heating and temperature maintenance systems
- ✓ Mirror heaters and moisture/fungus control
- ✓ Pipeline heating systems
- ✓ Water leak control systems
- ✓ Sockets and switches

**K-FLEX** is a leading manufacturer specializing in the production of thermal and acoustic elastomeric insulation materials. The company has production facilities and subsidiary networks around the globe in order to supply their products to a worldwide customer base. Its diversified product range provides solutions for various market sectors, including building, transportation, petrochemical and renewable energy.

The Company is **UNI EN ISO 9001:2008** registered and has over one thousand additional certifications for products that guarantee quality, reliability and performance standards for the whole insulation market.

### Products:

Thermal and acoustic elastomeric insulation materials.

As the only manufacturer that specializes in both intumescent coatings and passive fire stopping products, **Nullifire (Tremco-illbruck group)** is able to offer the full package for a building, making sure that all of the fire protection measures combine together to give all parties peace of mind.

From 2015, **ICT LLC** is authorized and trained to sell and make installation of passive fire protection products in Georgia.

With entrepreneurial vision and a constant desire of innovation, Kampmann GmbH & Co. KG has become one of the leading companies in the HVAC industry.

### Products:

- ✓ Convection heaters
- ✓ Perimeter heating
- ✓ Ventilation units
- ✓ Door air curtains
- ✓ Design grilles
- ✓ Unit heaters
- ✓ Air conditioning systems

ICT directly cooperates with:

The **Viessmann Group** is an international heating systems manufacturer headquartered in Allendorf (Eder), Germany. The group controls 27 production and project management divisions in 11 countries, its products are available in 74 countries, owning 32 subsidiaries and 120 sales offices around the world.

**Products:**

Heating, industrial and refrigeration systems.

## Main Completed Projects:

**Central Public Health Reference Laboratory (CPHRL) in Tbilisi, in cooperation with Behtel:** Pluvia rainwater management system.

Design, provision of materials and installation.

**Aversi pharmaceutical factory:** water system and PVC pipeline system.

Design, provision of materials and installation.

**Uptown Tbilisi (Tbilisi Mall):** Pluvia Rainwater management system; ventilation systems; sprinkler system (part).

**Presidential palace in Tbilisi:** wastewater/rainwater siphonic drainage and gas supply systems.

**Kopitnari airport (Kutaisi):** Pluvia rainwater management system.

Design, provision of materials and installation.

**Kempinski Hotel in Batumi:** Pluvia rainwater management system; ventilation system; sprinkler system.

Design, provision of materials and installation.

**Gldani Mall:** Pluvia rainwater management system.

Design, provision of materials and installation.

**Public Service Hall (Zugdidi):** Pluvia rainwater management system.

Design, provision of materials and installation.

**Merani (commercial building):** Pluvia rainwater management system.

Design, provision of materials and installation.

**Paragraph Hotel's winter garden:** Pluvia rainwater management system.

Design, provision of materials and installation.

**Public Service Hall (Tbilisi):** Siphonic rainwater drainage system.

Design, provision of materials and installation.

**Radisson Collection Hotel Tsinandali:** Siphonic rainwater drainage system for roof and balconies.

Design, provision of materials and installation.

**Le Méridien Hotel:** Siphonic rainwater drainage system.

Design, provision of materials and installation.

**Kokhta Mitarbi Resort:** Siphonic rainwater drainage system; roof heating and snow melting system.

Design, provision of materials and installation.

**Apartment house at Hualing Tbilisi Sea New City:** Fire detection system.

Design, provision of materials and installation.

**Pepsico Wimm-Bill-Dann Georgia (Plant in Tbilisi):** Active fire protection system (fire detection and sprinkler systems). Under the supervision of FM Global.

Design

**Sports Complex in Batumi:** FM200 fire suppression system.

Design, provision of materials and installation.

**Hotel and apartment house in Gudauri:** Roof and terrace heating system.

Design, provision of materials and installation.

**City Mall Tbilisi:** Pluvia siphonic water drainage system.

Design, provision of materials and installation.

**Divani Hotel (Kervan Tourism):** Fire protection system.

Design, provision of materials and installation.

**Stamba Hotel, Rooms Hotel Tbilisi (City Loft LLC):** Pluvia siphonic water drainage system; underfloor heating cable.

Provision of materials and installation.

**Sheraton Grand Tbilisi Metechi Hotel:** Fire pumps and FM200 fire suppression system.

Inspection, testing and maintenance.

**Hilton Hotel in Batumi:** FM200 & Ansul fire suppression systems.

Inspection, testing and maintenance.

## On-going Projects:

**Medical Diagnostic Center in Batumi:** Fire alarm and video surveillance systems; computer networks.

Provision of materials and installation.

**Panorama Tbilisi Project (Tabori Resorts LLC):** Pipe soundproofing (K-flex); roof drainage system (Geberit).

Provision of materials and installation.

**Hotel on Freedom Square, Tbilisi (a part of Panorama Tbilisi Project, Tbilisi City LLC):** underfloor heating cables.

Provision of materials and installation.
